

Transfer of Territory

It is the intention of the Board of Directors of the West Valley School District to work cooperatively with neighboring School Boards when addressing requests for a Transfer of Territory from one School District to another.

The Superintendent will establish procedures to ensure that School Board representatives from the West Valley School District meet with School Board representatives from the appropriate neighboring School District about pending requests for a Transfer of Territory prior to the West Valley School Board convening to determine whether to support the request.

The West Valley School District Board of Directors and Superintendent will not solicit citizens to submit a Citizen's Request for a Transfer of Territory.

Transfer of Territory petitions will be governed by the appropriate statutes and regulations. (RCW 28A.315, WAC 392-340).
