Strategic Planning

Planning Process

Strategic Planning Team Selection: Because the selection of the Strategic Planning Team involves the entire community, the Superintendent, in consultation with the Board and the Administrative Team, shall choose a representative membership not to exceed 25 members. The core team must include representatives from the general community (parents, patrons, interest group representatives and business leaders), staff, Board members and students. Over the course of their scheduled meetings, a draft strategic plan is produced.

Action Planning Team: The Action Planning Teams develop the strategic action plans that govern the implementation of the strategic plan. Membership on the Action Teams is open to any interested individual - community member, staff or student.

Adoption Date: 01.11.94
